

## Web-Based Resources for Teachers, Parents/Guardians and Students

First in Math: <http://www.firstinmath.com>

Hopewell students have been provided individual usernames and passwords to access this web site. Students can develop and practice math skills to support current classroom instruction and to explore additional concepts of interest.

Internet4Classrooms: <http://www.internet4classrooms.com>

No accounts are necessary to use this site. Content is separated by grade-level and aligned to common core standards. Online quizzes, printable worksheets, sample questions and practice questions are among the activities offered.

Khan Academy: <http://www.khanacademy.org>

After signing up for a free account, users can view short video demonstrations on a variety of topics. Content is organized by subject and grade level.

Quizlet: <http://www.quizlet.com>

Quizlet allows you to create and use an enhanced flashcard-type format for reviewing concepts on any topic. Audio and images can be included, and there are multiple ways to practice with the content, such as with multiple choice or true-false quizzes, matching, and a space-race game mode. Accounts are free to create.

ReadWorks: <http://www.readworks.org>

Read Works focuses on reading comprehension, and signing up to use the site is free. Short passages and novel studies are two ways the site offers to help students increase their comprehension skills.
